

Series N lubricators

New version

Ports G1/8, G1/4

» Available with:
transparent PA12 bowl or
nickel-plated brass bowl
for the small version (N1)

Series N lubricators are available with G1/4 and G1/8 ports. The special type of design allows a vast range of applications in relation to the amount of atomized oil and the air consumed. The body is made of brass, whilst the bowl can be in transparent PA12 or in nickel-plated brass.

The version with metal bowl is particularly suitable for applications subject to impacts or in the presence of aggressive agents that could damage the PA12 bowl.
